# Changes & Improvements

---

## Refined the distinct match flag

We refined the distinct match flag so that it is only set to **true** when there is a unique name/zip match (just one name/zip match).

**Impact to clients:** The distinct match flag will only get populated on name/zip matches when there is only one qualified match.

## Updated schema

Previously the Home Improvement value was displayed in the schema twice. We have updated the schema to only display the Home Improvement value once.

**Impact to clients:** Clients will only see Home Improvement value once in the schema.

# New Data
